

In response to an FEC letter dated June 15, 2004, the following action has been taken: On February 26, 2004, Billie Richardson made a \$4000 contribution as indicated in a "48 Hour" notice. \$1000 of that contribution was redesignated to the General Election Cycle. The April 15 Quarterly Report reflected only a \$3000 original contribution on that date. On that same date P.J. Richardson (spouse) made a \$1000 contribution. Consequently, an additional \$1000 of the original \$4000 was to be reattributed from Billie to P.J. Richardson, thus complying with FEC contribution limitations. Due to a limitation in the software, it was not possible to perform a redesignation and a reattribution to the same contribution. Thus, the \$1000 was deleted from Billie and added to P.J.'s 2/26/2004 contribution total. After consulting with FEC analyst Patrick, the original contribution totals were restored, and memo entries added to clarify the transaction. As a consequence, the aggregate totals are incorrect, and I was advised to include this "Memo Text" entry to clarify the discrepancy. Also, the incorrect "48 Hour" \$1000 contribution from Forschler & Assoc. PAC noted in the letter was correctly recorded on the correct date under "George Forschler" in the amended report.
